

Judge Robert E. GERBER,
CLAIM # 69723

My name is Jennifer Denny and on 10-14-08, my 1997 Buick Regal caught fire because of a recall on a part. I was never told about. The Pontiac People told me to have my car towed to the nearest Pontiac Dealer. I did as they asked, their inspector did agree the cause was the faulty part on the car. The main mechanic at the Pontiac Dealer said it would cost \$6664.⁸⁶ to fix my car. I had a claim (#661831) and the Claim Administrator (Brian Schwartz) sent me a letter saying they would pay me \$1,000.⁰⁰ to drop this. That would not fix my car nor buy a new car. I work really hard to pay for what I have and at no fault of mine some

of that was taken away on 10-14-08. When I would not agree the next thing I know, my case has been handed over to someone else. Now I'm getting papers about a bankruptcy and that I may have filed some papers late. I beg you, Please don't let them throw my case out because I didn't know of the papers I was supposed to file. I still have no idea what is going on. I get these court papers in the mail that I don't understand, so I call the lawyers whose name is on the papers and they say they can't help me. So I pray the court see fit NOT to throw my claim out. I have done nothing wrong.

Please make them be
accountable for what
they caused. This claim
is still very important to
me and my family. Thank-
you so much. And I am
so sorry I had to
involve you into my
problems but I seen you
was the Judge this case
is going to be heard by
and everyone I call will
not help me.

Thank you,
Jennifer Denny
